

Copy management by access code
with the

COPICODE ALPHA

Alphabetical
access code

Numerical
access code

- Very easy to use and to manage thanks to alphanumerical access codes
- A cost-efficient solution for the management of copies
- The Copicode Alpha is suitable for any type of copier

Copicode Alpha

■ Principle

The **Copicode Alpha** enables users, having an access code, to make copies and the person in charge of the copier management to register the copies of each user.

■ Application fields

Schools

Management of copiers per teacher, class, subject taught.

Companies

Management of copiers per user, department, service.

Lawyer and notary chambers, etc ...

Management of copiers per file with possibility of automatic creation of access codes by users.

■ Programming

Programming is only accessible to the person in charge of the copier management and mainly enables:

- the choice of the most suitable mode to your organization amongst many functioning ones,
- the programming of the alphabetical and alphanumerical codes for users,
- the possibility to record a maximum of copies for each user and to define cost prices,
- the possibility to create jobs or activities for a 2 level accounting,
- the viewing (on the screen) and the print out (on the optional printer) of the number of copies made by the users.

Print out example

John	237
Smith	528
William 1234	624
1234567	1 202

Total	2 591
